INDEPENDENT AUDITORS' REPORT

Lake Borgne Basin Levee District
Violet, Louisiana

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Lake Borgne Basin Levee District (a component unit of the State of Louisiana) as of and for the year ended June 30, 2007, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Lake Borgne Basin Levee District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Lake Borgne Basin Levee District, as of June 30, 2007, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated August 27, 2007, on our consideration of the Lake Borgne Basin Levee District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis and budgetary comparison information on pages 3 through 8 and 28 through 29, are not a required part of the basic financial statements but are

supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Lake Borgne Basin Levee District's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements of Lake Borgne Basin Levee District. The schedule of expenditures of federal awards has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Our audit was performed for the purpose of expressing an opinion on the basic financial statements taken as a whole. All other accompanying financial information listed as other supplementary information required by Louisiana law, in the table of contents is presented to comply with the requirements issued by the State of Louisiana, and is not a required part of the financial statements of the Lake Borgne Basin Levee District. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2007

The Management's Discussion and Analysis of the Lake Borgne Basin Levee District's financial performance presents a narrative overview and analysis of Lake Borgne Basin Levee District's financial activities for the year ended June 30, 2007. This document focuses on the current year's activities, resulting changes, and currently known facts in comparison with the prior year's information. Please read this document in conjunction with the additional information contained in the Lake Borgne Basin Levee District's financial statements, which begin on page 9.

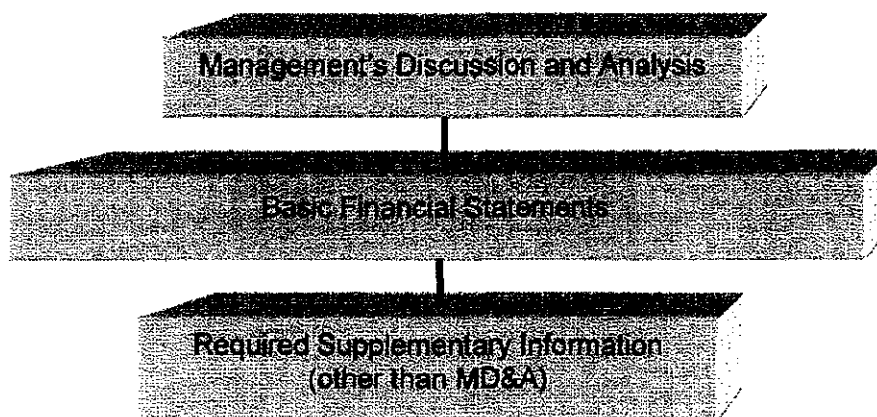

FINANCIAL HIGHLIGHTS

- ★ The Lake Borgne Basin Levee District's assets exceeded its liabilities at the close of fiscal year 2007 by \$20,304,000 which represents a 4% increase from last fiscal year.
- ★ Capital assets net of depreciation totaled \$15,833,000, an increase of \$283,000, after considering depreciation of \$766,000.
- ★ Current liabilities totaled \$978,000, which represents an increase of \$190,000 from prior year end.
- ★ Long-term bond debt outstanding amounted to \$640,000, which represents a decrease of \$625,000. Principal paid on the bond issue in the current year amounted to \$600,000.
- ★ Revenues totaled \$4,538,000 as compared to prior year of \$3,728,000. This represents an increase of \$810,000 from the prior year. Increase over prior year is primarily related to impact of Hurricane Katrina on prior years revenues.
- ★ Operating expenses totaled \$3,788,000, which represents a \$154,000 increase over prior year, primarily related to the impact of Hurricane Katrina.
- ★ Increase in net assets totaled \$750,000. This represents a \$656,000 increase from the prior year's change in net assets of \$94,000. This increase is attributed to an increase in revenues as noted above.

OVERVIEW OF THE FINANCIAL STATEMENTS

The following graphic illustrates the minimum requirements for Special Purpose Governments Engaged in Business-Type Activities established by Governmental Accounting Standards Board Statement 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*.

These financial statements consist of three sections - Management's Discussion and Analysis (this section), the basic financial statements (including the notes to the financial statements), and required supplementary information.

Basic Financial Statements

The basic financial statements present information for the Lake Borgne Basin Levee District as a whole, in a format designed to make the statements easier for the reader to understand. The statements in this section include the Statement of Net Assets and the Statement of Activities.

The Statement of Net Assets presents the current and long-term portions of assets and liabilities separately. The difference between total assets and total liabilities is net assets and may provide a useful indicator of whether the financial position of the Lake Borgne Basin Levee District is improving or deteriorating.

The Statement of Activities presents information showing how Lake Borgne Basin Levee District's assets changed as a result of current year operations. Regardless of when cash is affected, all changes in net assets are reported when the underlying transactions occur. As a result, there are transactions included that will not affect cash until future fiscal periods.

LAKE BORGNE BASIN LEVEE DISTRICT
STATE OF LOUISIANA
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2007

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Introduction

The Lake Borgne Basin Levee District was created by Louisiana Revised Statute (R.S.) 38:291(G). The Lake Borgne Basin Levee District is comprised of all the territory contained within the parish of St. Bernard. The levee district primarily provides flood protection for those areas contained in the district. The levee district is responsible for 60 miles of levees, 8 pumping stations, and 53 miles of drainage canals. The governing board administers the operations and responsibilities of the levee district in accordance with the provisions of Louisiana statutes. The Board of Commissioners of the Lake Borgne Basin Levee District consists of three members appointed by the governor.

The Commission's office is located in Violet, Louisiana, and employs 37 full-time and 6 part-time employees. The Commission's operations are funded primarily through ad valorem taxes, state revenue sharing and interest earnings.

The accounting and reporting framework and the more significant accounting principles and practices of the Lake Borgne Basin Levee District are discussed in subsequent sections of this Note. The remainder of the notes are organized to provide explanations, including required disclosures, of the Lake Borgne Basin Levee District's financial activities for the fiscal year ended June 30, 2007. The Lake Borgne Basin Levee District implemented new reporting model standards beginning July 1, 2001. Comparability with reports of all earlier years will be affected.

Financial Reporting Entity

GASB Statement No. 14, "The Financial Reporting Entity," has defined the governmental reporting entity to be the State of Louisiana. The Lake Borgne Basin Levee District is considered a component unit of the State of Louisiana because the state exercises oversight responsibility in that the governor appoints the board members, and public service is rendered within the state's boundaries. The accompanying basic financial statements present information only as to the transactions of the Lake Borgne Basin Levee District, a component unit of the State of Louisiana.

Annually the State of Louisiana issues a basic financial statement which includes the activity contained in the accompanying financial statement. The basic financial statement is issued by the Louisiana Division of Administration-Office of Statewide Reporting and Accounting Policy and audited by the Louisiana Legislative Auditor.

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of Presentation

Government-wide Financial Statements

The Statement of Net Assets and Statement of Activities display information about the reporting government as a whole. They include all funds of the Lake Borgne Basin Levee District. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues.

Fund Financial Statements

Fund financial statements of the Lake Borgne Basin Levee District are organized into funds, each of which is considered to be separate accounting entities. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund balances, revenues and expenditures/expenses. Funds are organized into one major category: governmental fund. An emphasis is placed on major funds within the governmental category. A fund is considered major if it is the primary operating fund of the Lake Borgne Basin Levee District or meets the following criteria:

- a. Total assets, liabilities, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type; and
- b. Total assets, liabilities, revenues, or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental funds combined.

The funds of the Lake Borgne Basin Levee District are each considered to be a major fund and are described below:

Governmental Funds

General Fund

The General Fund is the primary operating fund of the Lake Borgne Basin Levee District and is always classified as a major fund. It is used to account for all activities except those legally or administratively required to be accounted for in other funds.

Basis of Presentation (continued)

Debt Service Fund

The Series 2003 Debt Service Fund accumulates ad valorem tax revenues for finance debt service payments of the February, 2003, General Obligation Refunding Bond issue that refunded the August 1, 1993, General Obligation Refunding Bond Issue.

Capital Projects Fund

The Bond Referendum Capital Projects Fund accounts for financial resources received and used for the acquisition, construction, or improvement of capital facilities not reported in the other governmental funds.

Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

Measurement Focus

The government-wide Statement of Net Assets and the Statement of Activities are presented using the economic resources measurement focus as defined below.

In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus is used as appropriate:

All governmental funds utilize a "current financial resources" measurement focus. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of Accounting

In the government-wide Statement of Net Assets and Statement of Activities, governmental activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when "measurable and available." Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within sixty days after year end. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are reported when due.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Lake Borgne Basin Levee District's management to make estimates and assumptions that effect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Assets, Liabilities, Net Assets, and Fund Balances

Cash and Cash Equivalents and Investments

For the purpose of the Statement of Net Assets, cash and cash equivalents include all demand, savings accounts, and certificates of deposits with an original maturity of 90 days or less.

The Division of Administration, State of Louisiana, in a letter dated June 11, 2002, has advised that the Lake Borgne Basin Levee District does not provide major and significant improvements or maintenance to the levees that would constitute ownership under Governmental Accounting Standards Board (GASB 34) requirements. Based on guidance from the Division of Administration, the Lake Borgne Basin Levee District is required to report only a separate note disclosure of the MR&T and Hurricane Protection Levees in the financial statement. The Lake Borgne Basin Levee District mows grass and does minor repairs with its own workforce. Major repairs are normally made by the U.S. Corps of Engineers.

Inventory

Inventory consists of fuel and is carried at average cost on a first-in, first-out basis.

Assets, Liabilities, Net Assets, and Fund Balances (continued)

Depreciation

Depreciation of all exhaustible fixed assets is recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Assets. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation.

The range of estimated useful lives by type of asset is as follows:

Equipment	5-10 years
Infrastructure	40 years
Building	40 years

Fund Financial Statements

In the fund financial statements, fixed assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

Compensated Absences

Employees of the Lake Borgne Basin Levee District earn and accumulate vacation and sick leave at varying rates, depending upon their years of service. The amount of vacation and sick leave that may be accumulated by each employee is unlimited. Upon termination, employees or their heirs are compensated for up to 300 hours of unused vacation leave at the employee's hourly rate of pay at the time of termination. Upon retirement, unused vacation leave in excess of 300 hours plus unused sick leave are used to compute retirement benefits.

The liability for these compensated absences is recorded as long-term debt in the government-wide statements. The current portion of this debt is estimated based on historical trends. In the fund financial statements, governmental funds report only the compensated absences liability payable from expendable available financial resources.

Equity Classifications

Government-Wide Statements

Equity is classified as net assets and displayed in three components:

- a. Investment in Capital Assets - Consists of capital assets included restricted capital assets, net of accumulated depreciation.

- b. Restricted Net Assets - Consists of net assets with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted Net Assets - All other net assets that do not meet the definition of "restricted" or "invested in capital assets."

Fund Statements

Governmental fund equity is classified as fund balance. Fund balance is further classified as reserved and unreserved, with unreserved further split between designated and undesignated.

Revenues, Expenditures, and Expenses

Property Tax

Article 6, Section 39 of the Louisiana Constitution of 1974 provides that for the purpose of constructing and maintaining levees, levee drainage, flood protection, hurricane flood protection, and all other purposes incidental thereto, the levee district may levy annually a tax not to exceed five mills. If the levee district needs to raise additional funds in excess of the amount collected constitutionally, the taxes in excess of five mills must be approved by a majority vote of the electors.

Ad valorem taxes attach as an enforceable lien on property as of January 1 of each year. Taxes were levied by the District in November and billed to the taxpayers in December. Billed taxes become delinquent on January 1, of the following year.

Expenditures/Expenses

In the government-wide financial statements, expenses are classified by function for governmental activities.

In the fund financial statements, expenditures are classified as follows:

Governmental Funds - By Character:	Current (further classified by function)
	Debt Service
	Capital Outlay

(2) STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

By its nature as a state agency, the Lake Borgne Basin Levee District is subject to various state laws and regulations. An analysis of the Lake Borgne Basin Levee District's compliance with significant laws and regulations and demonstration of its stewardship over the Lake Borgne Basin Levee District resources follows.

Fund Accounting Requirements

The Lake Borgne Basin Levee District complies with all state laws and regulations requiring the use of separate funds. The legally required funds used by the Lake Borgne Basin Levee District include the following:

<u>Fund</u>	<u>Required By</u>
Series 2003 Debt Service Fund	Bond Indenture
Bond Referendum Capital Projects Fund	Bond Indenture

Deposits and Investments Laws and Regulations

In accordance with state law, all uninsured deposits of the Lake Borgne Basin Levee District in financial institutions must be secured with acceptable collateral valued at the lower of market or par. Acceptable collateral includes certain U.S. Government or Government Agency securities, certain State of Louisiana or political subdivision debt obligations, or surety bonds. As required by 12 U.S.C.A., Section 1823(e), all financial institutions pledging collateral to the Lake Borgne Basin Levee District must have a written collateral agreement approved by the Lake Borgne Basin Levee District board of directors or loan committee. As reflected in Note 4, all deposits were fully insured or collateralized.

Investments are limited by R.S. 33:2955 and the Lake Borgne Basin Levee District's investment policy.

(3) DETAIL NOTES ON TRANSACTION CLASSES/ACCOUNTS

(4) DEPOSITS WITH FINANCIAL INSTITUTIONS

For reporting purposes, deposits with financial institutions include savings, demand deposits, time deposits, and certificates of deposit. Under state law the Lake Borgne Basin Levee District may deposit funds within a fiscal agent bank selected and designated by the Interim Emergency Board. Further, the Lake Borgne Basin Levee District may invest in time certificates of deposit in any bank domiciled or having a branch office in the state of Louisiana; in savings accounts and shares of savings and loan associations and savings banks and in share accounts and share certificate accounts of federally or state chartered credit unions.

At June 30, 2007, the District has cash and cash equivalents (book balances) totaling \$5,793,272 as follows:

Petty cash	\$ 30
Demand deposits	<u>5,793,242</u>
	<u>\$ 5,793,272</u>

These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging agent bank in a holding or custodial bank that is mutually acceptable to both parties.

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. As of June 30, 2007, \$5,750,730 of the District's bank balance of \$5,950,730 was exposed to custodial credit risk as follows:

Uninsured and collateral held by pledging bank's trust department not in District's name	<u>\$ 5,750,730</u>

Depreciation expense for the year ended June 30, 2007 was \$766,069.

There are 13 miles of MR&T levees that lie within the jurisdiction of the Lake Borgne Basin Levee District. These levees were constructed and improved over the past 100 years by both original landowners and Federal and State Governments. The estimated cost of the 13 miles of MR&T levees as of June 30, 2007 is \$9,535,000. This estimate is based on information obtained from the New Orleans District of the U.S. Army Corps of Engineers.

The Lake Borgne Basin Levee District mows the grass and does minor repairs to 26 miles of Hurricane Protection Levees. These levees were built and improved during the past 35 years. Hurricane Protection Levees provide protection from coastal high tides and storm surges associated with tropical weather systems. The majority of funding for construction was provided by the U.S. Federal Government. The estimated project cost at June 30, 2006, obtained from the New Orleans District of the U.S. Corps of Engineers, was \$60,312,000. Work is continually being done on this project and the final cost of the project is expected to be higher than the estimate given in 2006.

With the adjoining of both MR&T and Hurricane Protection Levees, a circle of flood protection is provided for the residents and property of Southeast Louisiana.

(6) LONG-TERM DEBT

Governmental Activities

As of June 30, 2007, the governmental long-term debt of the Lake Borgne Basin Levee District consists of the following:

(7) EMPLOYEE PENSION AND OTHER BENEFIT PLANS (CONTINUED)

Pension Plan (continued)

All full time employees are eligible to participate in the System. Benefits vest with ten years of service. At retirement age, employees are entitled to annual benefits equal to \$300 plus 2.5% of their highest consecutive 36 month average salary multiplied by their years of credited service.

Vested employees may retire at [a] any age with thirty years of service, [b] age 55 with twenty-five years of service, and [c] at age sixty with ten years of service. In addition, vested employees have the option of reduced benefits at any age with twenty years of service. The System also provides death and disability benefits. Benefits are established by state statute. The System issues an annual publicly available financial report that includes financial statements and required supplementary information for the System. That report may be obtained by writing to the Louisiana State Employees' Retirement System; P. O. Box 44213; Baton Rouge, LA 70804 or by calling (800) 258-3000.

Members are required by state statute to contribute 7.5% of gross salary, and the Lake Borgne Basin Levee District is required to contribute at an actuarially determined rate as required by R.S. 11:102. The contribution rate for the fiscal year ended June 30, 2007, is 19.10% of annual covered payroll. The District's contributions to the System during the fiscal years ended June 30, 2007, 2006 and 2005 were \$140,913, \$169,369 and \$183,849, respectively, equal to the required contribution. Under present statutes, the Lake Borgne Basin Levee District does not guarantee any of the benefits granted by the system.

Postemployment Health Care and Life Insurance Benefits

The Lake Borgne Basin Levee District provides certain continuing health care and life insurance benefits for its retired employees. Substantially all of the Lake Borgne Basin Levee District's employees become eligible for these benefits if they reach normal retirement age while working for the Lake Borgne Basin Levee District. These benefits for retirees and similar benefits for active employees are provided through the State Employees Group Benefits Program whose monthly premiums are paid jointly by the employee and by the Lake Borgne Basin Levee District. The Lake Borgne Basin Levee District recognizes the cost of providing these benefits as an expenditure when paid during the year. For the year ended June 30, 2007, the cost of retiree benefits for nine retirees and two surviving spouses totaled \$54,220.

(8) RISK MANAGEMENT

The Levee District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters for which the Levee District purchases commercial insurance.

During the year ended June 30, 2007 the Levee District did not reduce insurance coverages from coverage levels in place as of June 30, 2007. No settlements have exceeded coverage levels in place during 2002, 2003, 2004, 2005 and 2006.

(9) COMMITMENTS AND CONTINGENCIES

The Lake Borgne Basin Levee District is a defendant in lawsuits involving personal injury and property expropriated. The District's legal counsel has reviewed all claims and lawsuits in order to evaluate the likelihood of an unfavorable outcome to the District. The legal counsel is of the opinion that liability from suits is questionable or insurance coverage appears adequate. The District's legal counsel has estimated a potential loss in the range of \$300,000 to \$600,000 on a case where insurance coverage was not available, though legal counsel is of the opinion that the District will prevail in its motion for summary judgment.

On February 4, 2003, grants were received from FEMA and the State of Louisiana in the amount of \$26,910 and \$3,450 to cover the costs to mitigate chronic corrosion problems resulting from dissimilate metal. After subsequent engineering studies, it was the opinion of independent engineers that the planned actions would not remedy the problem. Management offered to reimburse the unused portion of the funds received; however grantors stated that management should keep the funds until such time as reimbursement was requested. The amount of reimbursement, if any, will be determined when an audit is made by the grantor(s); therefore the amount of any such reimbursement cannot be estimated at June 30, 2007.

The Lake Borgne Basin Levee District is a defendant in lawsuits involving property damage, injuries, and fatalities resulting from flood on August 29, 2005 from Hurricane Katrina. District's legal counsel cannot estimate the outcome or range of potential loss at this time. District is vigorously defending the lawsuits.

The Lake Borgne Basin Levee District is a defendant in two lawsuit alleging property damage as a result of the District commandeering the plaintiffs' property following Hurricane Katrina. The District's legal counsel can not predict the outcome of these lawsuits, but estimates the potential loss to be \$2,000,000 in each case in the event of an unfavorable outcome.

(11) INTERFUND BALANCES

The Debt Service Fund's portion of the state revenue sharing income is received by the General Fund and remitted to the Debt Service Fund. At June 30, 2007, this amount totaled \$100,930 and was due to the Debt Service Fund.

(12) LEVEE DISTRICT CONSOLIDATION

In the Legislative sessions following Hurricane Katrina, the State of Louisiana Legislature passed a bill consolidating the Lake Borgne Basin Levee District with the Orleans Levee District and the East Jefferson Levee District into a single, state-run levee board responsible for levee maintenance and flood control in St. Bernard, Orleans, Jefferson and St. Tammany parishes. This measure was placed on a public ballot in September, 2006 and was approved by the voters. Effective January 1, 2007, the affairs of the District were governed by this new consolidated board. However, the Levee District continues to operate as a separate unconsolidated entity.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Lake Borgne Basin Levee District
Violet, Louisiana

We have audited the financial statements of Lake Borgne Basin Levee District (the District), as of and for the year ended June 30, 2007, and have issued our report thereon dated August 27, 2007. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Lake Borgne Basin Levee District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Lake Borgne Basin Levee District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Lake Borgne Basin Levee District's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects Lake Borgne Basin Levee District's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of Lake Borgne Basin Levee District's financial statements that is more than inconsequential will not be prevented or detected by Lake Borgne Basin Levee District's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Lake Borgne Basin Levee District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended for the information of management and the board of commissioners, the Louisiana Legislative Auditor, and federal and state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than those specified parties. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Lake Borgne Basin Levee District
Violet, Louisiana

Compliance

We have audited the compliance of Lake Borgne Basin Levee District, with the types of compliance requirements described in the *U. S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2007. Lake Borgne Basin Levee District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Lake Borgne Basin Levee District's management. Our responsibility is to express an opinion on Lake Borgne Basin Levee District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Lake Borgne Basin Levee District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Lake Borgne Basin Levee District's compliance with those requirements.

In our opinion, Lake Borgne Basin Levee District, complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2007.

Internal Control Over Compliance

The management of Lake Borgne Basin Levee District is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered Lake Borgne Basin Levee District's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Lake Borgne Basin Levee District's internal control over compliance.

A *control deficiency* in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended for the information of management and the board of commissioners, the Louisiana Legislative Auditor, and federal and state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than those specified parties. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

Statement D (concluded)

**STATE OF LOUISIANA
LAKE BORGNE BASIN LEVEE DISTRICT
Notes to the Financial Statement
As of and for the year ended June 30, 2007**

INTRODUCTION

The Lake Borgne Basin Levee District was created by the Louisiana State Legislature under the provisions of Louisiana Revised Statute 38:291(G). The following is a brief description of the operations of Lake Borgne Basin Levee District which includes the parish/parishes in which the Lake Borgne Basin Levee District is located:

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. BASIS OF ACCOUNTING

In April of 1984, the Financial Accounting Foundation established the Governmental Accounting Standards Board (GASB) to promulgate generally accepted accounting principles and reporting standards with respect to activities and transactions of state and local governmental entities. The GASB has issued a Codification of Governmental Accounting and Financial Reporting Standards (GASB Codification). This codification and subsequent GASB pronouncements are recognized as generally accepted accounting principles for state and local governments. The accompanying financial statements have been prepared in accordance with such principles.

The accompanying financial statements of Lake Borgne Basin Levee District present information only as to the transactions of the programs of the Lake Borgne Basin Levee District as authorized by Louisiana statutes and administrative regulations.

Basis of accounting refers to when revenues and expenses are recognized and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The accounts of the Lake Borgne Basin Levee District are maintained in accordance with applicable statutory provisions and the regulations of the Division of Administration -- Office of Statewide Reporting and Accounting Policy as follows:

Revenue Recognition

Revenues are recognized using the full accrual basis of accounting; therefore, revenues are recognized in the accounting period in which they are earned and become measurable.

Expense Recognition

Expenses are recognized on the accrual basis; therefore, expenses, including salaries, are recognized in the period incurred, if measurable.

B. BUDGETARY ACCOUNTING

The appropriations made for the operations of the various programs of the Lake Borgne Basin Levee District are annual lapsing appropriations.

1. The budgetary process is an annual appropriation valid for one year.
2. The agency is prohibited by statute from over expending the categories established in the budget.
3. Budget revisions are granted by the Joint Legislative Committee on the Budget, a committee of the Louisiana Legislature. Interim emergency appropriations may be granted by the Interim Emergency Board.
4. The budgetary information included in the financial statements includes the original appropriation plus subsequent amendments as follows:

**STATE OF LOUISIANA
LAKE BORGNE BASIN LEVEE DISTRICT
Notes to the Financial Statement
As of and for the year ended June 30, 2007**

	<u>APPROPRIATIONS</u>
Original approved budget	\$ <u>4,996,300</u>
Amendments:	<u> </u> <u> </u> <u> </u> <u> </u>
Final approved budget	\$ <u>4,996,300</u>

C. DEPOSITS WITH FINANCIAL INSTITUTIONS AND INVESTMENTS (If all agency cash and investments are deposited in the State Treasury, disregard Note C.) See Appendix B for information related to Note C.

1. DEPOSITS WITH FINANCIAL INSTITUTIONS

For reporting purposes, deposits with financial institutions include savings, demand deposits, time deposits, and certificates of deposit. Under state law the Lake Borgne Basin Levee District may deposit funds within a fiscal agent bank selected and designated by the Interim Emergency Board. Further, the Lake Borgne Basin Levee District may invest in time certificates of deposit in any bank domiciled or having a branch office in the state of Louisiana; in savings accounts or shares of savings and loan associations and savings banks and in share accounts and share certificate accounts of federally or state chartered credit unions.

For the purpose of the Statement of Cash Flows, all highly liquid investments (including restricted assets with a maturity of three months or less when purchased) are considered to be cash equivalents.

Deposits in bank accounts are stated at cost, which approximates market. Under state law these deposits must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These pledged securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank in the form of safekeeping receipts held by the State Treasurer.

GASB Statement 40, which amended GASB Statement 3, eliminated the requirement to disclose all deposits by the three categories of risk. GASB Statement 40 requires only the disclosure of deposits that are considered to be exposed to custodial credit risk. An entity's deposits are exposed to custodial credit risk if the deposit balances are either 1) uninsured and uncollateralized, 2) uninsured and collateralized with securities held by the pledging financial institution, or 3) uninsured and collateralized with securities held by the pledging financial institution's trust department or agent, but not in the entity's name.

The deposits at June 30, 2007, consisted of the following:

Petty cash	\$ 30

2. INVESTMENTS NONE

The Lake Borgne Basin Levee District does/does not maintain investment accounts as authorized by R.S. 39:1229 (Note legal provisions authorizing investments by District).

Custodial Credit Risk

Investments can be exposed to custodial credit risk if the securities underlying the investment are uninsured, not registered in the name of the entity, and are either held by the counterparty or the counterparty's trust department or agent but not in the entity's name. Repurchase agreements are not subject to credit risk if the securities underlying the repurchase agreement are exempt from credit risk disclosure. Using the table on the next page, list each type of investment disclosing the total carrying amounts and market values, and any amounts exposed to custodial credit risk.

Notes to the Financial Statement

As of and for the year ended June 30, 2007

GASB Statement 40 amended GASB Statement 3 to eliminate the requirement to disclose all investments by the three categories of risk. GASB Statement 40 requires only the separate disclosure of investments that are considered to be exposed to custodial credit risk. Those investments exposed to custodial credit risk are reported by type in one of two separate columns depending upon whether they are held by a counterparty, or held by a counterparty's trust department or agent not in the entity's name. In addition, the total reported amount and fair value columns still must be reported for total investments regardless of exposure to custodial credit risk.

D. CAPITAL ASSETS – INCLUDING CAPITAL LEASE ASSETS

The fixed assets used in the Special Purpose Government Engaged only in Business-Type Activities are included on the balance sheet of the entity and are capitalized at cost. Depreciation of all exhaustible fixed assets used by the entity is charged as an expense against operations. Accumulated depreciation is reported on the balance sheet. Depreciation for financial reporting purposes is computed by the straight line method over the useful lives of the assets.

G. LEAVE

1. COMPENSATED ABSENCES

The Lake Borgne Basin Levee Districts has the following policy on annual and sick leave: (Describe leave policy.)

Employees earn and accumulate annual and sick leave at various rates depending on their years of service. The amount of annual and sick leave that may be accumulated by each employee is unlimited. Upon termination, employees or their heirs are compensated for up to 300 hours of unused annual leave at the employee's hourly rate of pay at the time of termination. Upon retirement, unused annual leave in excess of 300 hours plus unused sick leave is used to compute retirement benefits.

The cost of leave privileges, computed in accordance with GASB Codification Section C60, is recognized as a current year expenditure in the fund when leave is actually taken; it is recognized in the enterprise funds when the leave is earned. The cost of leave privileges applicable to general government operations not requiring current resources is recorded in long-term obligations. The liability for accrued payable annual leave at June 30, 2007 computed in accordance with the Codification of Governmental Accounting and Financial Reporting Standards, Section C60 105 is estimated to be \$112,918.

2. COMPENSATORY LEAVE NONE

Employees who are considered having non-exempt status according to the guidelines contained in the Fair Labor Standards Act may be paid for compensatory leave earned (K-time). Upon termination or transfer, an employee will be paid for any time and one-half compensatory leave earned and may or may not be paid for any straight hour-for-hour compensatory leave earned. Compensation paid will be based on the employees' hourly rate of pay at termination or transfer. The liability for accrued payable compensatory leave at _____ (fiscal close) computed in accordance with the Codification of Governmental Accounting and Financial Reporting Standards, Section C60.105 is estimated to be \$ _____. The leave payable (is) (is not) recorded in the accompanying financial statements.

H. RETIREMENT SYSTEM

Substantially all of the employees of the (BTA) are members of the Louisiana State Employees Retirement System (LASERS), a single employer defined benefit pension plan. The System is a statewide public employee retirement system (PERS) for the benefit of state employees, which is administered and controlled by a separate board of trustees. (Note: If LASERS is not your entity's retirement system, indicate the retirement system that is and replace any wording in this note that doesn't apply to your retirement system with the applicable wording.)

**STATE OF LOUISIANA
LAKE BORGNE BASIN LEVEE DISTRICT
Notes to the Financial Statement
As of and for the year ended June 30, 2007**

All full-time (BTA) employees are eligible to participate in the System unless they elect to continue as a contributing member in any other retirement system for which they remain eligible for membership. Certain elected officials and officials appointed by the governor may, at their option, become members of LASERS. Normal benefits vest with 10 years of service. Generally, retirement age employees are entitled to annual benefits equal to \$300 plus 2.5% of their highest consecutive 36 months' average salary multiplied by their years of credited service except for members eligible to begin participation in the Defined Benefit Plan (DBP) on or after July 1, 2006. Act 75 of the 2005 Regular Session changes retirement eligibility and final average compensation for members who are eligible to begin participation in the DBP beginning July 1, 2006. Retirement eligibility for these members is limited to age 60, or thereafter, upon attainment of ten years of creditable service. Final average compensation will be based on the member's average annual earned compensation for the highest 60 consecutive months of employment.

Vested employees eligible to begin participation in the DBP before July 1, 2006, are entitled to a retirement benefit, payable monthly for life at (a) any age with 30 years of service, (b) age 55 with 25 years of service, or (c) age 60 with 10 years of service. In addition, these vested employees have the option of reduced benefits at any age with 20 years of service. Those hired on or after July 1, 2006 have only a single age option. They cannot retire until age 60 with a minimum of 10 years of service. The System also provides death and disability benefits and deferred benefit options, with qualifications and amounts defined by statute. Benefits are established or amended by state statute. The System issues a publicly available annual financial report that includes financial statements and required supplementary information for the System. For a full description of the LASERS defined benefit plan, please refer to the LASERS 2006 Financial Statements, specifically, footnotes A – Plan Description and C – Contributions. That report may be obtained by writing to the Louisiana State Employees Retirement System, Post Office Box 44213, Baton Rouge, Louisiana 70804-4213, or by calling (225) 922-0608 or (800) 256-3000. The footnotes to the Financial Statements contain additional details and is also available on-line at:

http://www.lasers.state.la.us/PDFs/Publications_and_Reports/Fiscal_Documents/Comprehensive_Financial_Reports/Comprehensive%20Financial%20Reports_06.pdf

Members are required by state statute to contribute with the single largest group ("regular members") contributing 7.5% of gross salary, and the (BTA) is required to contribute at an actuarially determined rate as required by R.S. 11:102. The contribution rate for the fiscal year ended June 30, 2007, increased to 19.1% of annual covered payroll from the 17.8% and 15.8% required in fiscal years ended June 30, 2006 and 2005 respectively. The District's contributions to the System for the years ending June 30, 2007, 2006, and 2005, were \$140,913, \$169,369, and \$183,849, respectively, equal to the required contributions for each year.

I. POST RETIREMENT HEALTH CARE AND LIFE INSURANCE BENEFITS

GASB 12 requires the following disclosures about an employer's accounting for post retirement health care and life insurance benefits: **(NOTE: Ensure that the number of retirees is disclosed below)**

1. A description of the benefits provided and the employee group covered.
2. A description of the accounting and funding policies followed for those benefits.
3. The cost of those benefits recognized for the period, unless the costs are not readily determinable.*
4. The effect of significant matters affecting the comparability of the costs recognized for all periods presented.

*If the cost of any post retirement health care or life insurance benefits for retirees cannot readily be separated from the cost of providing such benefits for active employees or otherwise be reasonably approximated, the total cost of providing those benefits to active employees and retirees, as well as the number of active employees and the number of retirees covered by the plan must be disclosed (part (b) below).

The Lake Borgne Basin Levee District provides certain continuing health care and life insurance benefits for its retired employees. Substantially all District's employees become eligible for post employment health care and life insurance benefits if they reach normal retirement age while working for the District. These benefits for retirees and similar benefits for active employees are provided through an insurance company whose premiums are paid jointly by the employee and the District. Complete (a) below if the cost of retiree post-employment health care benefits can be separated from active employees, otherwise complete part (b).

3. LESSOR DIRECT FINANCING LEASES

A lease is classified as a direct financing lease (1) when any one of the four capitalization criteria used to define a capital lease for the lessee is met and (2) when both the following criteria are satisfied:

- Collectibility of the minimum lease payments is reasonably predictable.
- No important uncertainties surround the amount of the unreimbursable costs yet to be incurred by the lessor under the lease.

Provide a general description of the direct financing agreement and complete the chart below:

When a lease agreement does not satisfy at least one of the four criteria (common to both lessee and lessor accounting), and both of the criteria for a lessor (collectibility and no uncertain reimbursable costs), the lease is classified as an operating lease. In an operating lease, there is no simulated sale and the lessor simply records rent revenues as they become measurable and available.

L. CONTINGENT LIABILITIES

GAAP requires that the notes to the financial statements disclose any situation where there is at least a reasonable possibility that assets have been impaired or that a liability has been incurred along with the dollar amount if it can reasonably be estimated. **Do not report impaired capital assets as defined by GASB 42 below, rather disclose GASB 42 impaired capital assets in Note CC.** Losses or ending litigation that is probable should be reflected on the balance sheet.

The Lake Borgne Basin Levee District is a defendant in litigation seeking damages as follows: (Only list litigation not being handled by the Office of Risk Management or the Attorney General.)

*Note: Liability for claims and judgments should include specific, incremental claim expenses if known or if it can be estimated. For example, the cost of outside legal assistance on a particular claim may be an incremental cost, whereas assistance from internal legal staff on a claim may not be incremental because the salary costs for internal staff normally will be incurred regardless of the claim. (See GASB 30, paragraph 9)

(Only answer the following questions for those claims and litigation not being handled by the Office of Risk Management.)

Indicate the way in which risks of loss are handled (circle one).

purchase of commercial insurance,

participation in a public entity risk pool (e.g., Office of Risk Management claims)

risk retention (e.g., Use of an internal service fund is considered risk retention because the entity as a whole has retained the risk of loss.)

X. SEGMENT INFORMATION NONE

Governments that report enterprise funds or that use enterprise fund accounting and reporting standards to report their activities are required to present segment information for those activities in the notes to the financial statements. For purposes of this disclosure, a segment is an identifiable activity (or group of activities), reported as or within an enterprise fund or another stand-alone entity that has one or more bonds or other debt instruments outstanding, with a revenue stream pledged in support of that debt. In addition, the activity's revenues, expenses, gains and losses, assets, and liabilities are required to be accounted for separately. This requirement for separate accounting applies if imposed by an external party, such as accounting and reporting requirements set forth in bond indentures. Disclosure requirements for each segment should be met by identifying the types of goods and services provided and by presenting condensed financial statements in the notes, including the elements in A through C below (GASB 34, paragraph 122, as modified by GASB 37, paragraph 17.)

Type of goods or services provided by the segment _____

CC. IMPAIRMENT OF CAPITAL ASSETS NONE

GASB 42 establishes accounting and financial reporting standards for the impairment of capital assets. Governments are required to evaluate prominent events or changes in circumstances affecting capital assets to determine whether impairment has occurred. A capital asset generally should be considered impaired if both (a) the decline in service utility of the capital asset is large in magnitude and (b) the event or change in circumstance is outside the normal life cycle of the capital asset. See Appendix D for more information on GASB 42 and the Impairment of Capital Assets.

The following capital assets became impaired in FY 06-07: (There are five indicators of impairment described in Appendix D, (1) physical damage, (2) enactment of laws, etc. List the appropriate number (1-5) to identify the indicator of impairment in the second to last column below.)

Movable Property	_____	_____	_____	_____
Infrastructure	_____	_____	_____	_____

The carrying amount of impaired capital assets that are idle at year-end should be disclosed, regardless of whether the impairment is considered permanent or temporary. The following capital assets were idle at the end of the fiscal year: (Include the capital assets listed above that are still idle at the end of the fiscal year, and any prior year impaired assets that are still idle at the end of the fiscal year.)

DD. EMPLOYEE TERMINATION BENEFITS NONE

Termination benefits are benefits, other than salaries and wages, that are provided by employers as settlement for involuntary terminations initiated by management, or as an incentive for voluntary terminations initiated by employees. Involuntary termination benefits include benefits such as payment for unused leave balances. Voluntary termination benefits include benefits such as enhanced early retirement options resulting from an approved early retirement plan and payment for unused leave balances.

Other termination benefits may include:

1. Early retirement incentives, such as cash payments, enhancement to defined benefit formula
2. Health care coverage when none would otherwise be provided (COBRA)
3. Compensated absences, including payments for leave balances
4. Payments due to early release from employment contracts

**STATE OF LOUISIANA
LAKE BORGNE BASIN LEVEE DISTRICT
Notes to the Financial Statement
As of and for the year ended June 30, 2007**

GASB 47 requires the following disclosures about an employer's accounting for employee termination benefits:

1. A description of the termination benefit arrangement(s)
2. Period the employer becomes obligated
3. Number of employees affected
4. Cost of termination benefits
5. Type of benefit(s) provided
6. The period of time over which the benefits are expected to be provided
7. If the termination benefit affects the defined benefit pension (OPEB) obligations, disclose the change in the actuarial accrued liability for the pension or OPEB plan attributable to the termination benefit
8. When termination liabilities are reported, disclose the significant methods and assumptions used to determine the liabilities to be disclosed (for as long as the liability is reported)

The GASB 47 note disclosures listed below are provided as an example and should be modified as necessary.

Substantially all employees are eligible for termination benefits upon separation from the state. The agency recognizes the cost of providing these benefits as expenditures when paid during the year. For 2007, the cost of providing those benefits for _____ (number of) voluntary terminations totaled \$ _____. For 2007, the cost of providing those benefits for _____ (number of) involuntary terminations totaled \$ _____.
[The termination benefits (voluntary and involuntary) paid in FY 2007 should also be included in the Statement of Revenues, Expenses, and Changes in Fund Net Assets on the account line "Administrative" in the Operating Expense Section.]

The liability for the accrued voluntary terminations benefits payable at June 30, _____ is \$ _____. This liability consists of _____ (number of) voluntary terminations. The liability for the accrued involuntary terminations benefits payable at June 30, _____ is \$ _____. This liability consists of _____ (number of) involuntary terminations.

[The termination benefits (voluntary and involuntary) payable at fiscal year end should also be included on the Balance Sheet in the "compensated absences payable" account line.]

If a termination benefit is not recognized because the expected benefits are not estimable, the employer should disclose that fact. Briefly describe termination benefits provided to employees as discussed above. If none, please state that fact.

A terminated employee can continue to access health benefits, however, if the COBRA participant is paying the ENTIRE premium then there is no state contribution on behalf of this individual. Therefore, when a terminated employee pays 100% of the premium, the state would not have a termination liability.

Federal Grantor = the federal agency that provided the federal award to your entity or a pass-through entity.

Pass-Through Entity = the quasi-public agency, local government, other state government, public college or university in another state, et cetera, that provided the federal award to carry out a federal program, if applicable.

Program Name/Title and Cluster Name = the program name from the CFDA catalog; if not available, the name should be taken from the federal award document; the cluster name should come from these instructions if a program falls within a cluster.

CFDA or Other Identifying No. = number presented on the federal award document; if a CFDA number is not available, an other identifying number must be provided along with the 2-digit federal agency prefix, i.e., federal award no., etc.

Pass-Through Entity Number = identifying number assigned by the pass-through entity, if applicable.

Project Name = the name of the grant or project as identified in the accounting records; if the project name is the same as the program, enter SAME.

Award ID = the grant, contract, etc., number that was assigned by the Federal grantor; this number is the number that is used when corresponding with the grantor.

Award Period = the period during which the assistance is available to your entity.

Cash Disbursements = the amount of indirect costs and actual cash disbursements made during the 12 months ended June 30, 2007, which have or will be funded with Federal funds.

Issues = the dollar value of food stamps, federal commodities, or other nonmonetary assistance issued during the 12 months ended June 30, 2007.

Total = the total amounts in the cash disbursements and issues columns.

Receipts = the receipt of property or the receipt of surplus property.
